

HIGHER EDUCATION

The overall budget for higher education is reduced from the original 1991-93 budget by a net amount of \$41.9 million. The major changes are described below.

General Budget Reduction

A general reduction of \$47.0 million is made to the operating budgets for the institutions of higher education. Each four-year institution is required to reduce spending by 2.5 percent. The community and technical college system is required to reduce spending by 1.4 percent. The community and technical college reduction is smaller in order to preserve originally budgeted enrollment levels at those institutions. Institutions are given the flexibility to manage the spending reductions, except for directives to reduce travel expenditures by specific amounts for each institution reflecting approximately a 25 percent reduction in state-funded travel. The savings from travel reductions are to be used to support instruction.

Salaries

Funding for each institution is adjusted to reflect a change in salary increases for the second year of the biennium. Employees will receive a 3.0 percent increase on January 1, 1993, rather than 3.6 or 3.9 percent increases as originally budgeted. In addition, \$1.2 million is provided for faculty salary increments at community colleges.

Enrollment Levels

The enrollment increases provided in the original 1991-93 budget are preserved. Also, the institutions are given more flexibility for managing enrollment by increasing their enrollment authorization to 4 percent above budgeted levels. Originally, they were limited to 2 percent above budgeted levels. No change was made to the minimum enrollment requirement of 2 percent below budgeted levels. Tables displaying budgeted enrollment levels for each institution are on the pages following this summary.

General Fund Operating Fees Accounts Established

Chapter 231, Laws of 1992 (SB 6285) establishes separate treasury accounts for each higher education institution and the community colleges as a whole for all operating fee tuition revenue. The budget appropriates to each institution the amount of operating fee revenue estimated to be collected in its Operating Fees Account for fiscal year 1993. General Fund-State appropriations are reduced

by a corresponding amount.

Tuition Waiver Reduction

The budget, as amended by Chapter 238, Laws of 1992 (SB 5961) reduces the amount of operating fee tuition that institutions can waive by 6.6 percent. The 6.6 percent reduction excludes the Adult Basic Education (ABE) program at the community colleges. The corresponding increase in tuition revenue is estimated to be \$4.0 million.

Institutions are required to manage the reduction in waivers within the parameters of the statutes for each of the 35 waiver programs. Chapter 231, Laws of 1992 (SB 6285) modifies the statutes for individual waiver programs giving the institutions discretion over whether to grant full or partial waivers to qualifying students. However, through fiscal year 1995, SB 6285 also limits reductions that can be made to individual waiver programs to no more than twice the percentage reduction required in the appropriations act. Thus, for fiscal year 1993, no individual waiver program can be reduced by more than 13.2 percent.

Student Quality Standard

The "Student Quality Standard", which is a minimum amount specified for each institution to spend per full-time-equivalent student, is changed in the budget language from stated dollar amounts to the definition for calculating the amounts. Applying the definition to the revised appropriations for the 1991-93 biennium yields the following student quality standards:

University of Washington	\$9,758
Washington State University	\$7,953
Eastern Washington University	\$5,873
Central Washington University	\$5,844
Western Washington University	\$5,602
The Evergreen State College	\$7,396
The Community Colleges	\$3,531

Technical College Transfer

Under Chapter 238, Laws of 1991, the technical colleges (formerly vocational technical institutes) were transferred from the public school system to the community and technical college system, effective September 1, 1991. The Seattle Vocational Institute (formerly the Washington Institute of Applied Technology) was also made a part of the community and technical college system. In addition, administrative responsibility for Adult Basic Education (federal funding) and the Even Start program was transferred from the Office of the Superintendent of Public Instruction to the State Board for Community and Technical Colleges. The 1992 supplemental budget transfers the corresponding appropriations for these schools and programs to the State Board for Community and Technical Colleges. The total amounts transferred from General Fund-State and local funds include: \$75.4 million for technical colleges; \$3.1 million for the Seattle Vocational Institute; and \$1.5 million for the Even Start program. In addition to the amounts transferred, the technical college amount is increased by \$7.8 million to accommodate differences between public school and state agency budgeting and accounting procedures. From the General Fund-Federal, \$4.7 million is transferred for Adult Basic Education.

Comments:

1. TECH. COLLEGE ACCOUNTING LAG - Provides for changes in technical college accounting procedures through the end of the 1991-93 biennium. Under Chapter 238, Laws of 1991, the technical colleges were transferred to the community college system, resulting in their change from school district accounting procedures to state agency accounting procedures. Under school district accounting, they deferred 20 percent of their expenditures to the next state budget fiscal period, and general fund appropriations were reduced to reflect the deferral. As state agencies, they will account for all expenditures in the state fiscal period in which they occur, and the general fund appropriation is increased by a corresponding amount. However, because the cash

associated with these additional payments will not be disbursed until the next biennium, a positive \$7.8 million cash adjustment to the overall General Fund-State position offsets this increase.

2. SECOND YEAR SALARY ADJUSTMENT - Adjusts funding for employee salary increases for the second year of the biennium. Employees will receive a 3.0 percent increase on January 1, 1993, rather than 3.6 or 3.9 percent increases as originally budgeted.
3. HEALTH BENEFIT SURPLUS - Reduces funding for employee health benefits to take advantage of improved actuarial cost projections for the biennium. No change in the benefits package is assumed.

4. CHANGE 2ND YR SAL TO 3.0 FOR TC - Adjusts funding for technical college employee salary increases for the second year of the biennium. Employees will receive a 3.0 percent increase on January 1, 1993, rather than a 3.547 percent increase on September 1, 1993 as originally budgeted.

5. DELAYED IMPLEMENTATION DRG - Increases funding for employee health benefits as a result of the Health Care Authority's delayed use of diagnostic related groups (DRGs) to limit hospital bills. The DRGs represent a cost saving measure assumed in the original funding level.

Community & Technical College System

6. VTI TRANSFER – Transfers a portion of the appropriation for the operation of the technical colleges (formerly vocational technical institutes) from the Office of the Superintendent of Public Instruction (OSPI) to the State Board for Community and Technical Colleges in accordance with Chapter 238, Laws of 1991. The transfer was effective September 1, 1991, therefore funding for the months of July and August, 1991 (\$12,345,000) is retained by the OSPI.
7. 1.4% REDUCTION – Reduces funding for general operating expenses from the state general fund by 1.4 percent.
8. FY93 FACULTY SALARY INCREMENTS – Provides funding for fiscal year 1993 community college faculty salary increments.
9. OPERATING FEE TRANSFER – Transfers net operating fees revenue from the general fund—state to the general fund—operating fees account established under Chapter 231, Laws of 1992 (SB 6285). The net operating fees revenue is equal to the February, 1992 tuition revenue forecast (adjusted for fiscal year 1993 budgeted enrollment levels), before granting any waivers, less tuition retained by the schools in their institutional 2.5 percent loan fund under RCW 28B.15.820, and less the 6.6 percent reduction in waivers required under the 1992 Supplemental Appropriations Act (ESHB 2470), as amended by Chapter 238, Laws of 1992 (SB 5961).
10. REVOLVING FUND REDUCTION – Reduces funding for various revolving fund charges.

NOTE: Community College System received an appropriation in Chapter 238, Laws of 1992 (SB 5961).

For further information, see the schedule entitled "Appropriations Contained Within Other Legislation" in the Revenue Section of this document.

Comments:

1. BIOLOGICAL MONITORING LAB - Provides \$386,000 from the Medical Aid Account and Accident Account for expansion of the biological monitoring laboratory in the School of Public Health.
2. SECOND YEAR SALARY ADJUSTMENT - Adjusts funding for employee salary increases for the second year of the biennium. Employees will receive a 3.0 percent increase on January 1, 1993, rather than 3.6 or 3.9 percent increases as originally budgeted.
3. HEALTH BENEFIT SURPLUS - Reduces funding for employee health benefits to take advantage of improved actuarial cost projections for the biennium. No change in the benefits package is assumed.

4. DELAYED IMPLEMENTATION DRG - Increases funding for employee health benefits as a result of the Health Care Authority's delayed use of diagnostic related groups (DRGs) to limit hospital bills. The DRGs represent a cost-saving measure assumed in the original funding level.
5. 2.5% REDUCTION - Reduces funding for general operating expenses from the state general fund by 2.5 percent.
6. PLANNING FOR LEARNING PROJECT - Provides one-time funding of \$40,000 for the Planning for Learning Project to be conducted by the Department of Psychiatry and Behavioral Science in the University's school of medicine, in conjunction with the

Superintendent of Public Instruction and local school districts. The purpose of the project is to compile and distribute information, and to develop policy and program recommendations, about effectively teaching elementary school children exposed prenatally to drugs and alcohol.

7. OPERATING FEE TRANSFER - Transfers net operating fees revenue from the general fund-state to the general fund-operating fees account established under Chapter 231, Laws of 1992 (SB 6285). The net operating fees revenue is equal to the February, 1992 tuition revenue forecast (adjusted for fiscal year 1993 budgeted enrollment levels), before granting any waivers, less tuition retained by the schools in their institutional 2.5 percent loan fund under RCW 28B.15.820, and less

University of Washington

the 6.6 percent reduction in waivers required under the 1992 Supplemental Appropriations Act (ESHB 2470), as amended by Chapter 238, Laws of 1992 (SB 5961).

8. TOXICOLOGY LAB INCREASE – Increases funding for the State Toxicology Laboratory, from the Death Investigation Account, for increased rent and utilities associated with additional space.
9. REVOLVING FUND REDUCTION – Reduces funding for various revolving fund charges.

NOTE: University of Washington received appropriations in Chapter 251, Laws of 1991 (SSB 5008) and Chapter 238, Laws of 1992 (SB 5961).

6. OPERATING FEE TRANSFER – Transfers net operating fees revenue from the general fund—state to the general fund—operating fees account established under Chapter 231, Laws of 1992 (SB 6285). The net operating fees revenue is equal to the February, 1992 tuition revenue forecast (adjusted for fiscal year 1993 budgeted enrollment levels), before granting any waivers, less tuition retained by the schools in their institutional 2.5 percent loan fund under RCW 28B.15.820, and less the 6.6 percent reduction in waivers required under the

1992 Supplemental Appropriations Act (ESHB 2470), as amended by Chapter 238, Laws of 1992 (SB 5961).

7. REVOLVING FUND REDUCTION – Reduces funding for various revolving fund charges.

NOTE: The Evergreen State College received an appropriation in Chapter 238, Laws of 1992 (SB 5961).

For further information, see the schedule entitled "Appropriations Contained Within Other Legislation" in the Revenue Section of this document.

Western Washington University
(\$ 000)

	GF-S	OTHER	TOTAL
1989-91 EXPENDITURES	103,130	20,132	123,262
1991-93 ORIGINAL APPROPRIATION	115,445	18,980	134,425
1992 SUPPLEMENTAL BUDGET			
1. SECOND YEAR SALARY ADJUSTMENT	(203)	0	(203)
2. HEALTH BENEFIT SURPLUS	(49)	0	(49)
3. DELAYED IMPLEMENTATION DRG	1	0	1
4. 2.5% REDUCTION	(2,895)	0	(2,895)

6. REVOLVING FUND REDUCTION	(19)	0	(19)
SUPPLEMENTAL ITEM TOTAL	(16,959)	13,794	(3,165)
TOTAL 1991-93 BIENNIUM	98,486	32,774	131,260

Comments:

1. **SECOND YEAR SALARY ADJUSTMENT** – Adjusts funding for employee salary increases for the second year of the biennium. Employees will receive a 3.0 percent increase on January 1, 1993, rather than 3.6 or 3.9 percent increases as originally budgeted.
2. **HEALTH BENEFIT SURPLUS** – Reduces funding for employee health benefits to take advantage of improved actuarial cost projections for the biennium. No change in the benefits package is assumed.
3. **DELAYED IMPLEMENTATION DRG** – Increases funding for employee health benefits as a result of the Health Care Authority's delayed use of diagnostic related groups (DRGs) to limit hospital bills. The DRGs represent a cost-saving measure assumed in the original funding level.
4. **2.5% REDUCTION** – Reduces funding for general operating expenses from the state general fund by 2.5 percent.

5. **OPERATING FEE TRANSFER** – Transfers net operating fees revenue from the general fund—state to the general fund—operating fees account established under Chapter 231, Laws of 1992 (SB 6285). The net operating fees revenue is equal to the February, 1992 tuition revenue forecast (adjusted for fiscal year 1993 budgeted enrollment levels), before granting any waivers, less tuition retained by the schools in their institutional 2.5 percent loan fund under RCW 28B.15.820, and less the 6.6 percent reduction in waivers required under the 1992 Supplemental Appropriations Act (ESHB 2470), as amended by Chapter 238, Laws of 1992 (SB 5961).
6. **REVOLVING FUND REDUCTION** – Reduces funding for various revolving fund charges.

NOTE: Western Washington University received an appropriation in Chapter 238, Laws of 1992 (SB 5961).

For further information, see the schedule entitled "Appropriations Contained Within Other Legislation" in the Revenue Section of this document.
